# Italstudio. An international brand created by Italian mind.

Is it possible to give customers from all over the world the creativity, the quality of Italian design at a fair price?

This was my challenge. And this is the mission of Italstudio, a company based in Guangzhou, but using machinery, production techniques

and design exclusively Italian. Thousands of customers all over the world every day let me believe that this challenge is already a big reality of the globalized market.

POWDER COAT IS A TREATMENT TO METAL THAT IS APPLIED AS A FREE FLOWING DRY POWDER. THE COATING IS APPLIED ELECTROSTATICALLY AND THEN CURED UNDER HEAT (OVER 200 DEGREES CENTIGRADE) CREATING A HARD, DURABLE FINISH. IT IS ALSO MORE FRIENDLY TO THE ENVIRONMENT AS IT DOES NOT REQUIRE ANY SOLVENTS TO BIND THE FINISH AND DOES NOT RELEASE GASES INTO THE ATMOSPHERE. POWDER COAT ALLOWS A CONSISTENCY ON ALL SURFACES.
